

Collect a legend Step into the future

A collection that reflects your eye for the exceptional.

Some admire legends. Others collect them.
Begin your digital collection with the first
horse that speaks to you.

Project introduction / Brand edition V6.0

Your first horse is only the beginning.

From your first favorite to a complete nine-horse collection; from learning the rules to joining the community. Inspired by legendary Chinese horses, MALAI brings together the joy of collecting, a sense of achievement and a shared interest.

01

The horse collection

Find a favorite. Build a collection that reflects your taste.

02

Fixed-period collecting

Plan each collection period at your own pace.

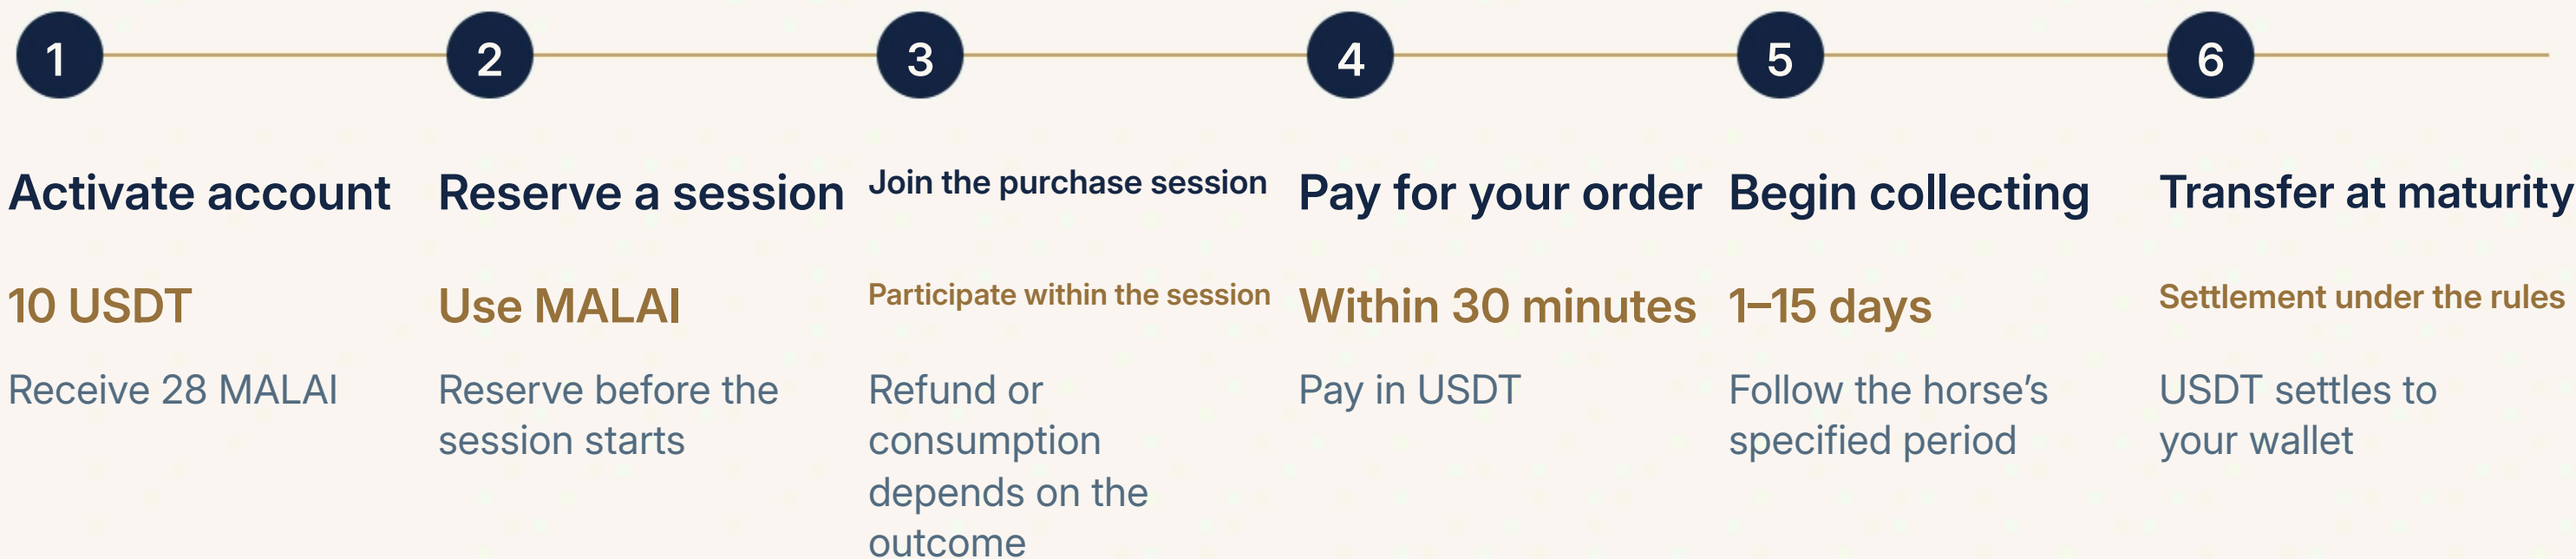

03

Community participation

Discuss your choices, share your collection and connect through a common interest.

From first impression to collection: six steps.

Choose your horse and take the next step.

MALAI and USDT serve different purposes.

MALAI is used for reservations and related rule-based actions; USDT pays for activation and collectible orders.

Your first legend starts here.

10 USDT

One-time activation fee

28 MALAI

Granted after a new user activates their account. Activation is charged separately from collectible orders; each subsequent order still requires payment.

Nine sessions a day. Ten minutes each.

Make time for your chosen horse.

13:00—21:10

UTC+8 · Sessions start hourly from 13:00. Reserve in advance and join on time.

13:00–13:10 Hu Lei Bo 8 MALAI	14:00–14:10 Zi Xing 7 MALAI	15:00–15:10 Jing Fan 16 MALAI
16:00–16:10 Shi Zi Cong 12 MALAI	17:00–17:10 Zhao Ye Bai 20 MALAI	18:00–18:10 Wu Zhui 45 MALAI
19:00–19:10 Di Lu 72 MALAI	20:00–20:10 Jue Ying 105 MALAI	21:00–21:10 Chi Tu 200 MALAI

Once you secure an order,
complete your purchase.

30 minutes

Pay the secured order in USDT. Once payment is complete, the horse's collection period begins.

Missing the payment deadline triggers account blocking.

**Something to look forward to.
Every stage is your choice.**

1-15 days

Start with one horse and look ahead to a complete nine-horse collection. Each has its own order range, required MALAI, collection period and full-period rate.

At maturity, the system transfers and settles under the rules. The full-period rate is not a daily rate or a promise of unconditional payment.

The first impression is yours to discover.

MALAI connects each step of participation.

Referral-based distribution · Market-set pricing

MALAI is distributed through referral rewards and may also be obtained through activation grants, task rewards or market trades under the rules. Listing prices are set freely in the market.

01 Deducted on reservation

The required MALAI for the selected horse is deducted.

02 **No order secured? Automatically refunded.**

You must have participated on time in the specified session.

03 Successful or missed session: consumed

MALAI is consumed if you secure an order or fail to click to participate on time.

Build the community. Understand the rewards.

Different calculation bases apply

Regular referral rewards are paid in MALAI

5%

direct referral reward

Based on your directly referred user's actual MALAI consumption.

1%

generation reward

Each additional qualifying direct referral unlocks one generation, up to 20.

5%–70%

rank differential reward

Meet the V1–V9 requirements; rewards use the applicable difference between rank rates.

10%

same-rank reward

10% × the same-rank direct referral's generation, direct referral and rank differential rewards combined.

Eligibility: hold an active collectible

A qualifying user holds at least one product whose collection period has not expired.

A clear benchmark for every rank.

V1–V7 require both qualifying member counts and personal MALAI consumption. V8 and V9 use branch-based rank conditions.

Rank	Qualifying network members	Personal MALAI consumed	Differential rate
V1	5 members	50	5%
V2	15 members	100	10%
V3	50 members	200	15%
V4	150 members	400	20%
V5	300 members	600	30%
V6	600 members	1000	40%
V7	1000 members	1500	50%

V8

60%

2 V7 members across 2 branches

V9

70%

3 V8 members across 3 branches

Complete the nine, one step at a time.

Daily	Reserve and join 3 sessions	+3 MALAI
Daily	Reach 6 sessions: earn 5 more	8 MALAI total
Daily	Reach 9 sessions: earn 12 more	20 MALAI total
Daily	Refer 1 qualifying user	+6 MALAI
One-time	Complete 1 exchange-market trade	+6 MALAI
One-time	Link your email address	+5 MALAI

Daily reservation tiers add up as follows: 3 + 5 + 12 = 20 MALAI.

Linked email: receive a reminder 10 minutes before a reserved session starts.

Next goal: collect all nine

+288 MALAI / recurring task

Set your listing price. Count only completed trades.

You may list MALAI for sale in the platform market, with prices set freely. Listing prices are not executed prices. An unfilled listing is not cash income.

5% Seller transaction fee

Net sale proceeds = executed quantity × execution price × 95%

Understand one period before planning the next.

Chi Tu example: 1,000 USDT, 15 days, a 25% full-period return rate under the rules.

01

1,000

Order amount / USDT

02

250

Nominal period returns / USDT

03

1,250

Illustrative principal + returns / USDT

$$1,000 \times 25\% = 250$$

The rate covers the whole period. Do not multiply it by the number of days.

Net return on this order = 250 – actual MALAI acquisition cost – activation fee – other costs

This order requires 200 MALAI. The first-time activation fee is 10 USDT; an already activated account does not pay it again.

Payment has a deadline. Reinstatement has a limit.

Pay the order within 30 minutes

Late payment after securing an order triggers automatic account blocking. Referral rewards stop, and automatic payouts for unreceived order proceeds are suspended.

50

First reinstatement / MALAI

200

Second reinstatement / MALAI

Third default: permanent account blocking.

After paying the reinstatement MALAI, pay the original order within 30 minutes. Only then is reinstatement complete and both referral rewards and collection-period returns restored.

Collecting means giving your own taste a place to grow.

The first spark of interest, the confidence of a choice and the satisfaction of completing another part of the collection: these moments become your collecting story.

01

Start with one

Choose a horse that truly appeals to you and trust your own judgment.

02

Work toward all nine

Set a complete collection as a goal and explore at your own pace.

03

Look toward the future

Bring traditional horse imagery into digital collecting and give a familiar passion a new expression.

A shared interest brings people together.

Enjoy your collection privately or share it with fellow collectors.

01 Discuss your choices

Share your favorite horse designs, collection pace and participation experience.

02 Share your collection

Record your progress and the story behind each new addition.

03 Understand the rules together

Share the introduction, infographic and FAQ. Understand the project before participating.
