Collect a legend

Step into the future

A collection that reflects your eye for the exceptional.

Some admire legends. Others collect them. Begin your digital collection with the first horse that speaks to you.

Project Introduction/Current Rules

Collect legends. Express your own taste. Explore a digital future.

Your first horse is only the beginning.

From your first favorite to a complete nine-horse collection; from learning the rules to joining the community. Inspired by legendary Chinese horses, MALAI brings together the joy of collecting, a sense of achievement and a shared interest.

01

The horse collection

Find a favorite. Build a collection that reflects your taste.

02

Fixed-period collecting

Plan each collection period at your own pace.

03

Community participation

All sessions share one reservation window: 00:00-10:00 Beijing time (UTC+8). Unreserved purchases are allowed and consume 30% more MALAI.

Once you secure an order, complete your purchase.

50 minutes

Complete payment within 50 minutes after securing an order. The reward balance can pay up to 100% of an order. If it is insufficient, pay only the shortfall separately in USDT.

After 50 minutes without completed payment, referral rewards stop and automatic payouts for orders whose proceeds have not yet been received are suspended.

Something to look forward to.

Every stage is your choice.

1–15 days

Each famous horse corresponds to an independent amount range, U value reservation fee, collection days and cycle ratio.

The due payment will automatically enter the wallet; the actual status and subsequent operations shall be subject to the announcement on the official page.

The first impression is yours to discover.

Rates cover the entire period, not each day. Actual settlement depends on platform performance.

MALAI connects the ecosystem

Reservations · Swaps · Permitted transfers · Games

MALAI is the platform ecosystem token, used for reservations, swaps, transfers permitted by the rules, and ecosystem games. Bonuses can buy MALAI at the platform's real-time price. Existing fee rules apply.

01 Standard fees are listed as U-values

Fees are shown in U value. The MALAI quantity uses the platform's real-time price.

02 No order secured: MALAI returned

The MALAI fee is deducted when you secure an order. If you do not secure an order, the reserved MALAI is returned.

03 Unreserved purchases are allowed

All sessions share one reservation window: 00:00-10:00 Beijing time (UTC+8). Unreserved purchases are allowed and consume 30% more MALAI.

Build the community. Understand the rewards.

Eligibility: hold an active collectible

An eligible user holds an item currently in collection. Registration or activation alone does not qualify.

Calculated under each reward rule using actual consumption

Referral rewards are denominated in USDT

5% — **direct referral reward**

Calculated from direct referrals' actual MALAI consumption under the reward rule.

1% — **generation reward**

Each qualifying direct referral unlocks 1 generation at 1%, up to 20.

5%–80% — **rank differential reward**

Meet the V1–V9 requirements; rewards use the applicable difference between rank rates.

10% — **same-rank reward**

Same rank as a direct referral: apply the same-rank reward rules; credit the reward balance.

Rewards can cover up to 100% of an order

A clear benchmark for every rank.

V1–V7 require both qualifying member counts and personal MALAI consumption. V8 and V9 use branch-based rank conditions.

Rank	Qualifying network members	Personal MALAI consumed	Differential rate
V1	5 members	50	5%
V2	15 members	100	10%
V3	50 members	200	20%
V4	150 members	400	30%
V5	300 members	600	40%
V6	600 members	1000	50%
V7	1000 members	1500	60%

V8 **70%**

2 V7 members across 2 branches

V9 **80%**

3 V8 members across 3 branches

V1-V7 must meet the number of people and personal consumption at the same time; V8 and V9 meet the branch conditions.

Daily check-in

1 entry

7 consecutive daily check-ins → 1 wheel-game entry

After the daily tasks and recurring tasks are completed, the rewards will be included in the reward balance.

Eligible users who check in every day for 7 consecutive days receive 1 entry to Five Blessings, the wheel game. The weekly leaderboard ranks users by their purchase order amount for that week. 1st: reward to be announced; 2nd: 188 U; 3rd: 88 U; 4th-10th: 188 MALAI each.

The specific reward amount, collection and use details are subject to the announcement on the official page.

Understand one period before planning the next.

Chi Tu example: 1,000 USDT, 15 days, a 30% full-period return rate under the rules.

01

1,000

Order amount / USDT

02

300

Nominal period returns / USDT

03

1,300

Illustrative principal + returns / USDT

1,000 × 30% = 300

The rate covers the whole period. Do not multiply it by the number of days.

Net return on this order = 300 – actual MALAI acquisition cost – activation fee – other costs

Chi Tu’s current standard reservation fee is 84 U worth of MALAI. The token quantity uses the platform’s real-time price.

Illustrates full settlement only; not a return guarantee. Reinvestment and unrealized rewards are excluded.

Pay within 50 minutes / Rewards can cover up to 100% of an order

Pay order within 50 minutes

After 50 minutes without completed payment, referral rewards stop and automatic payouts for orders whose proceeds have not yet been received are suspended.

100%

Maximum reward contribution

0%

USDT if rewards cover the full order

The reward balance can pay up to 100% of an order. If it is insufficient, pay only the shortfall separately in USDT.

For a 1,000U order, a sufficient reward balance can pay all 1,000U with 0U added separately. If the balance is lower, pay the shortfall in USDT.

Late-payment handling and restoration follow official instructions.

Collecting means giving your own taste a place to grow.

The first spark of interest, the confidence of a choice and the satisfaction of completing another part of the collection: these moments become your collecting story.
