All sessions share one reservation window: 00:00-10:00 Beijing time (UTC+8). Unreserved purchases are allowed and consume 30% more MALAI.

The U ranges are nominal returns for the full period: order amount × period rate, without multiplying by days. Principal excluded; reservation and other fees are not deducted. Actual amounts are subject to settlement.

Rewards and participation

Eligibility: hold an active collectible
An eligible user holds an item currently in collection. Registration or activation alone does not qualify.
Referral rewards are denominated in USDT

direct referral reward
5%
Calculated from direct referrals' actual MALAI consumption under the reward rule.

generation reward
1%
Each qualifying direct referral unlocks 1 generation at 1%, up to 20.

same-rank reward
10%
Same rank as a direct referral: apply the same-rank reward rules; credit the reward balance.

A clear benchmark for every rank.

Rank	Qualifying network members	Personal MALAI consumption required	Differential rate
V1	5	50	5%
V2	15	100	10%
V3	50	200	20%
V4	150	400	30%
V5	300	600	40%
V6	600	1000	50%
V7	1000	1500	60%
V8	2 V7 members across 2 branches		70%
V9	3 V8 members across 3 branches		80%

V1–V7 require both qualifying member counts and personal MALAI consumption. V8 and V9 use branch-based rank conditions.

Tasks and rewards

Daily tasks include reserving and joining 3, 6 or 9 purchase sessions and referring 1 qualifying user. Claim the corresponding reward after completing the task. Amounts, claim limits and procedures are published on the official page.

Collect all 9 famous horses

After the daily tasks and recurring tasks are completed, the rewards will be included in the reward balance.

Eligible users who check in every day for 7 consecutive days receive 1 entry to Five Blessings, the wheel game.

The weekly leaderboard ranks users by their purchase order amount for that week. 1st: reward to be announced; 2nd: 188 U; 3rd: 88 U; 4th-10th: 188 MALAI each.

Pay within 50 minutes

Complete payment within 50 minutes after securing an order. The reward balance can pay up to 100% of an order. If it is insufficient, pay only the shortfall separately in USDT. The maturity payment enters the wallet automatically.

Fulfillment and order processing

After 50 minutes without completed payment, referral rewards stop and automatic payouts for orders whose proceeds have not yet been received are suspended.

Late-payment handling and restoration follow official instructions.

MALAI swaps and transfers

Rewards can buy MALAI directly at the platform's real-time price, under the existing fee rules. Upline/downline transfers and swap sales carry 5% fees.
